Pregnancy Jessica P. Phillips, 2016-08-02 Find out my top 3 favourite books that I am using to help me with pregnancy and get them for FREE INSIDE You have either just received the news that you are pregnant or you are thinking that you are ready to get pregnant Whichever the case is you are going to have fifty million questions that you are going to want answers to This is perfectly normal Do not think that any of your questions are weird or do not deserve to have an answer No question is stupid and every question deserve to have an answer so that your mind is put at ease and you know what to look for to see if something is not going right with your pregnancy Every pregnancy is going to be different for every woman You cannot compare your pregnancy to another woman's because what she experiences may be completely different from what you experience However that does not mean you cannot get advice from those who have been pregnant before Even after reading this book you may find that you have questions about how what you read affects your pregnancy Being that this book is giving you general answers to questions that every pregnant woman thinks about it is best to talk to your health care provider about your pregnancy specifically Some of the questions in this book are not going to give you all the information that you need in order have all the information that you need because this book cannot give you all the information that you need As is mentioned multiple times in this book you need to make sure that you keep your doctor informed of any changes that cause you to worry or are not normal Pregnancy is a time in a woman's life that she should be happy and excited but sadly there are going to be things that can stand in the way of that With this book we have gone over some of the things that cause a pregnancy to not be a happy time period There are always going to be a million questions that you are going to have during your pregnancy whether it is your first pregnancy or your third Simply because even your own pregnancies are not going to be the same Make sure that you can trust your doctor because you are going to be seeing a lot of them not to mention that they are going to be delivering your baby into the world If you do not feel that you can trust your doctor or that you are getting the attention that you need from them it is probably best that you find another doctor Our hope with this book is that you got the answers to some of the questions that you had about your pregnancy and gave you enough information to be able to help you know what is normal in your pregnancy and what is not Good luck with your pregnancy and remember to try and get all the rest that you can eat as healthy as you can take your prenatal vitamins and keep all your prenatal appointments Try not to stress too much and just enjoy being pregnant while you can Also don't be afraid to ask for help There are going to be things that you cannot physically do in order to help maintain the health of your baby and you Just because someone doesn't do it right away does not mean that it cannot or will not get done Do not put your health or your baby's health at risk There will be moments that

you are going to wish you weren't pregnant but the reward of holding that precious baby at the end is well worth some of the pain that you will experience Just keep your eye on the end goal
